Dear Prof Wang,

A handwritten signature in blue ink that reads "Der Huating".

It is with immense pleasure to offer my heartiest congratulations on your success in obtaining HK\$27,694,000 from the Strategic Topics Grant (STG) for your research project titled "*Combating Aging-Associated Sarcopenia: From Knowledge Discovery to Intervention Testing*".

Competition for this research fund has always been intense. Your success is well-deserved. It speaks highly of how well your research leadership and efforts are perceived and recognized. Colleagues are proud of your accomplishment.

I trust that with this new resource, you can propel research activities to a new height and at the same time help further nurture and develop research strengths in the Faculty.

Congratulations once again. I wish you and your team continued success.

Sincerely,

A handwritten signature in blue ink, likely belonging to Professor Philip W Y Chiu.
